

ENAUuploader Manual

Please visit <https://enauploadertest.mmoxford.uk> with a browser. The first page of ENAUuploader lists steps users need to complete to register studies, experiments, runs and samples on ENA.

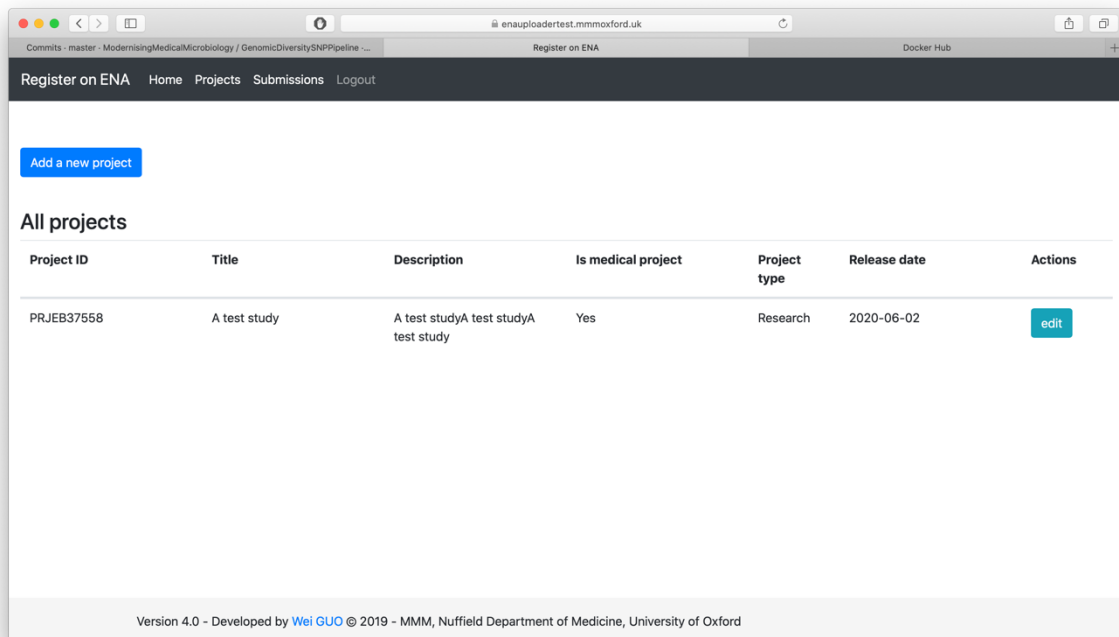

Users click the button, 'Download a template' to download a csv template.

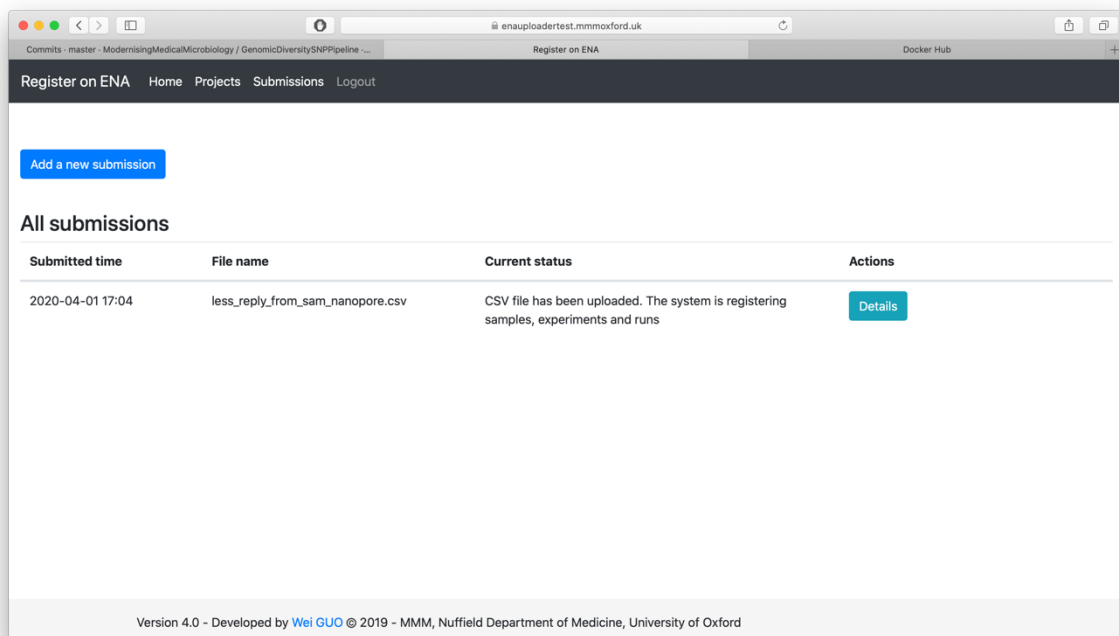

After click 'Sign in', users can log in to the system and upload their csv templates.

Click 'Projects' on the navigation, users can add a new project on ENA.

After create a project, please click 'Add a new submission' to upload a csv template.

When users register a study on ENAUploader, the study is not released immediately by EBI. Users need to upload their csv templates with the following functionality. In a csv template, there is a column called, bioproject_id, which should be the study accession number that you have just created.

The screenshot shows a web browser window with the URL `enauploader.mmmoxford.uk`. The page has a dark navigation bar with links: [Register on ENA](#), [Home](#), [Projects](#), [Submissions](#), and [Logout](#). The main content area is titled "Choose one of the following situations to upload your template file". It contains two options, each with a blue link and a corresponding form box:

- [Upload a csv template file for a registered and unreleased study](#): The form box contains a "Choose File" button, the text "no file selected", and an "Upload" button.
- [Upload a csv template file for a public study on EBI or NCBI](#): This option is currently inactive, with its form box hidden.

The footer of the page states: "Version 4.0 - Developed by [Wei GUO](#) © 2019 - MMM, Nuffield Department of Medicine, University of Oxford".

Users can also just register experiments, runs and samples on EBI and link them to a public study on EBI or NCBI with the following functionality.

This screenshot is identical to the one above, showing the same web interface for uploading CSV templates. It displays the navigation bar, the title "Choose one of the following situations to upload your template file", and the two available options with their respective form boxes. The first option is active, showing the "Choose File" button, "no file selected" text, and "Upload" button. The second option is inactive. The footer remains the same: "Version 4.0 - Developed by [Wei GUO](#) © 2019 - MMM, Nuffield Department of Medicine, University of Oxford".
